UF Neurology Diversity Council
April - Diversity Month

During Diversity Month, the Neurology Diversity Council wants to emphasize the importance of your volunteer work at COVID vaccination sites. The pandemic has worsened inequality at many different levels, and this has been exacerbated by the inequitable access to vaccines.

We believe that a direct way to assist affected minorities is to volunteer our time and help vaccinate residents in the underserved areas of our community.

Volunteers are needed, so please click HERE to sign up. If you have trouble, please contact us.

Other activities during Diversity Week

4/6 Neurology Grand Round –
Come hear our Co-Chairs discuss the Neurology Diversity Council history and who we are!

4/7 Collaboration Day –
Neurology Diversity Council will meet with other department Diversity Councils to discuss possible areas of collaboration. If you are a part of a Diversity Council and would like to collaborate, please email (monica.anderson@neurology.ufl.edu).

For more information, please contact (monica.anderson@neurology.ufl.edu)
